Is this a good website?

Put it to the CRAAP test!

Currency
• When was it published or last updated?
• Is it the most current information available?
• Are the links inside the page working and up to date?
• For your topic, what is your preferred date range?

Relevance
• Does the information help you understand your research question?
• Is the reading level too technical or too simplistic?
• Does the information add something new to expand your understanding or is it too far off topic?

Authority
• Who is the author and what are his/her credentials?
• What else has this author published?
• Do other credible sources cite this one?

Accuracy
• Can you find any factual errors?
• Are there errors in spelling, punctuation, and grammar?
• Has the material been edited or peer reviewed?

Purpose
• Can you spot bias in the information?
• Is the information meant to inform, persuade, or sell you something?
• Are important facts omitted?
• Does the author use strong, emotional language?
